## **DETAILED ACTION**

1. Claims 1-43 are pending in this Office Action.

## Election/Restrictions

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-33 are drawn to the search interface including a free-text search tool for accepting free-text queries, classified in class 707, subclass 102.
  - II. Claim 34-41 and 43 are drawn to search a set of material, classified in class 707, subclass 3.
  - III. Claim 42 is drawn to computing the set of attribute value pairs containing words, classified in class 704, subclass 9.
- 3. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the search interface including a free-text search tool for accepting free-text queries in invention I can be used in displaying results to a user. Search a set of material in invention II can be used in retrieving materials. Computing the set of attribute value pairs containing words in invention III can be used in containing one attribute-value pair from each equivalence class in the conjunction of equivalence classes. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

- 5. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
